

80/20 Farm Plan.

Client's Name Goes Here

The 80/20 Rule

Vilfredo Pareto (1848-1923)

French born - Italian engineer and economist (died in Switzerland) was famous for his theory 'Pareto Efficiency'.

(also known as the principle of factor sparsity)

80/20 Rule:

80 percent of your results will come from
20 percent of your activities...

Focus Areas

You Choose!

- What you want to focus on...
- The length of the focus period (30,60,90 Days)...
- The Key Points of Measurement that are of Interest to You...
- The tasks that you realistically expect to complete between review periods...
- Who you want present at the meetings...

Herd Practices/ Direct Milk Production

Key Point of Measure – Production
per kg input / per cow (kg weight)

Production	Considerations (examples)	Actions & Financial Consequence
Herd Size/Breed	• Breeding • Culling • Sale/Purchase	
Herd Welfare	• Disease Prevention • Comfort • Race Condition	
Hydration	• Trough Positions • Water Source • Distribution Integrity	
Nutrition	• Pasture Quality • Pasture Quantity • Supplements	
Milking	• Frequency • Shed Conditions • Stress Reduction	

Land Practices

Key Point of Measure – \$ per Hectare

Land	Considerations (examples)	Actions & Financial Consequence
Pasture Management	• Soil type & condition • Grass/Seed type • Land gradient • Avg' Rainfall • Fertiliser • Herd Home • Feed Pad/s	
Effluent	• Collection • Spreading • Storing/Disposal	
Machinery & Equipment	• Preventative Maintenance • Storage / Convenience • Security	
Stock Control	• Fences • Stock Crossing Hazard Warnings	
Farm Layout	• Milking Shed Location • Access to Run-Off	

People Practices

Key Point of Measure – Days worked
per half day missed – illness / accident

People	Considerations (examples)	Actions & Financial Consequence
Employment	• Skills / Best Practices • Work Ethic • Contracts	
Safety	• Health & Wellbeing • OSH • Annual Leave	
Management Structure	• Roles Responsibilities • Communication Lines • Learning together	
Knowledge Management	• Farm Manual • Emergency Procedures • Skills / Career Path	
Required Labour Units	• Specialist Roles • Core Task Sharing • Use of Technology	

Financial/ Administration Practices

Key Point of Measure – R.O.A

Practices	Considerations (examples)	Actions & Financial Consequence
Debt Management	• ROI Expectations • Capital Preservation • Lender Relations	
Cash Management	• Budgets/Forecasts • Dashboard Reporting KPIs	
Accounting	• Tax management • Benchmarking • Payroll • Compliance	
Estate / Planning Creditor Protection	• Wills / Trusts / • Trading Structure • Personal Insurances • Powers of Attorney • Share Transfer / Key Person agreements	
Governance	• Board Structure / Roles • Advisory Board Terms of Reference • Board Plan • Meeting Agenda & Procedures
